SUBJECT INDEX

Acrolein
use of ab initio computational results and experimental frequencies to construct the internal rotational potential function for acrolein 327

Alkylbenzoic acids
polymorphism and intermolecular interactions in crystalline fluorinated alkylbenzoic acids 229

Ammonia
studies in hydrogen bonding: simulation of the crystalline solids of ice, ammonia, and ammonia hydrate 357

Ammonia hydrate
studies in hydrogen bonding: simulation of the crystalline solids of ice, ammonia, and ammonia hydrate 357

Androst-4-en-3,17-dione molecules
radiation damage in androst-4-en-3,17-dione molecules: an ESR study of free radicals in single crystals 127

ANSA
an answer to the SPIRO versus ANSA dilemma in cyclophosphazenes. Part IX. The first genuine ANSA derivatives from $N_3P_3Cl_6$ itself 365

Axially symmetric molecules
independent linear combinations of spectroscopic constants for axially symmetric molecules 347

Azidoacetonitrile
the vibrational spectra, molecular structure and conformation of organic azides. Part VI. Azidoacetonitrile 245

3-Azidopropyne
the vibrational spectra, molecular structure and conformations of organic azides. Part V. 3-Azidopropyne (propargylazide) 1

1,8-Bis-(methylene-4,4′-bipyridinium)naphthalene
peri-interaction: crystal structure of 1,8-bis-(methylene-4,4′-bipyridinium)naphthalene 311

Bromobutenes
molecular mechanics calculations of conformational structures, energies and torsional force constants in some bromopropenes and bromobutenes 143

Bromopropenes
molecular mechanics calculations of conformational structures, energies and torsional force constants in some bromopropenes and bromobutenes 143

2-Butanethiol
surface-enhanced Raman scattering of 2-butanethiol in silver sol 81

1,2-Carbodicyanocyclobuten-3,4-dione
characterization and crystal structures of dirubidium salts and dicesium salts of 1,2-carbodicyanocyclobuten-3,4-dione 287

CD_3SD
the vibrational spectra of CD_3SH and CD_3SD in various phases of CH_3SH and CH_3SD in the torsion vibration region of the two solid phases 221

CD_3SH
the vibrational spectra of CD_3SH and CD_3SD in various phases and of CH_3SH and CH_3SD in the torsion vibration region of the two solid phases 221

CH_3SD
the vibrational spectra of CD_3SH and CD_3SD in various phases and of CH_3SH and CH_3SD in the torsion vibration region of the two solid phases 221

CH_3SH
the vibrational spectra of CD_3SH and CD_3SD in various phases and of CH_3SH and CH_3SD in the torsion vibration region of the two solid phases 221

$C_2{}^{14}N_2$
the pure rotational raman spectra of cyanogen $C_2{}^{14}N_2$ and $C_2{}^{15}N_2$ 209

$C_2{}^{15}N_2$
the pure rotational raman spectra of cyanogen $C_2{}^{14}N_2$ and $C_2{}^{15}N_2$ 209

Cyanobenzene
molecular structure and ring distortions of cyanobenzene: an electron diffraction study 97

Dicesium salts
characterization and crystal structures of dirubidium salts and dicesium salts of 1,2-carbodicyclobuten-3,4-dione 287
6,6-Dimethyl-1-oxa-spiro[2.5]octane
6,6-dimethyl-1-oxa-spiro[2.5]octane. Conformational equilibrium in the gas phase as studied by microwave spectroscopy and molecular mechanics calculations 259
Dirubidium salts
characterization and crystal structures of dirubidium salts and dicesium salts of 1,2-carbodicyanocyclobuten-3,4-dione 287
1,3-Dithiane derivatives
orbital interactions in 1,3-dithiane derivatives studied by UV photoelectron spectroscopy and MNDO method 117
Drug receptors
molecular determinants for drug-receptors. Part 11: The preferred conformation of *N*-(*p*-anisoyl)pyrrolidin-2-one ("Aniracetam") in the solid and solution states as indicated by X-ray crystal structure analysis, dipole moment and theoretical calculations 297

Harmonic force constants
uniquely defined harmonic force constants in redundant coordinates 159
HDO molecules
infrared spectroscopic studies of hydrogen bonded complexes of water with oxygen bases. Part IV. The infrared spectra in the OH-stretching region of HDO molecules dissolved in some ketones and ethers 67
Hydrogen bonded complexes of water
infrared spectroscopic studies of hydrogen bonded complexes of water with oxygen bases. Part IV. The infrared spectra in the OH-stretching region of HDO molecules dissolved in some ketones and ethers 67
Hydrogen bonding
hydrogen bonding. Part 23. Further studies on stoichiometry, stability, and structure of the lower hydrates of tetramethylammonium fluoride 57
Hydrogen bonding
studies in hydrogen bonding: simulation of the crystalline solids of ice, ammonia, and ammonia hydrate 357
Hydroxylamine,
on the N—O bond length in free and *N*-protonated hydroxylamine and redetermination of the crystal structure of hydroxylammonium chloride, (H_3NOH)-Cl 109
Hydroxylammonium chloride, $(H_3NOH)Cl$
on the N—O bond length in free and *N*-protonated hydroxylamine and redetermination of the crystal structure of hydroxylammonium chloride, (H_3NOH)-Cl 109

Ice
studies in hydrogen bonding: simulation of the crystalline solids of ice, ammonia, and ammonia hydrate 357
2-Indolinone
A ^1H and ^{13}C NMR study of the prototropic equilibria of 2-indolinone 319
Isoprene conformers
Ab initio structures and vibrational analysis of the isoprene conformers 337

Methiodide of 2-oxosparteine
the stereochemistry of quaternary *N*-methyl sparteinium cations, their derivatives, stereoisomers and analogues. Part II. Molecular and crystal structure, and IR spectra of methiodide of 2-oxosparteine and methperchlorate of 2-oxosparteine 189
L-Methionine
vibrational spectra and conformational phase transition of crystalline L-methionine 27
Methperchlorate of 2-oxosparteine
the stereochemistry of quaternary *N*-methyl sparteinium cations, their derivatives, stereoisomers and analogues. Part II. Molecular and crystal structure, and IR spectra of methiodide of 2-oxosparteine and methperchlorate of 2-oxosparteine 189
Methyl ester of alanine
conformational analysis of the methyl ester of alanine by gas electron diffraction and ab initio geometry optimization 275

N-chlorodifluoromethanimine
microwave spectrum, quadrupole coupling constants, and structure of *N*-chlorodifluoromethanimine

$NH_4UO_2PO_4 \cdot 3H_2O$
the identity of the cation in $NH_4UO_2PO_4 \cdot 3H_2O$ from infrared and inelastic neutron scattering spectroscopies 91
N—O Bond length
on the N—O bond length in free and *N*-protonated hydroxylamine and redetermination of the crystal structure of hydroxylammonium chloride, $(H_3NOH)Cl$ 109
N-(*p*-anisoyl)pyrrolidin-2-one ("Aniracetam")
molecular determinants for drug-receptors. Part 11: The preferred conformation of *N*-(*p*-anisoyl)pyrrolidin-2-one ("Aniracetam") in the solid and solution states as indicated by X-ray crystal structure analysis, dipole moment and theoretical calculations 297

Organic azides
the vibrational spectra, molecular structure and conformation of organic azides. Part VI. Azidoacetonitrile 245
Organic azides
the vibrational spectra, molecular structure and conformations of organic azides. Part V. 3-Azidopropyne (propargylazide) 1

Propargylazide
the vibrational spectra, molecular structure and conformations of organic azides. Part V. 3-Azidopropyne (propargylazide) 1

Quaternary *N*-methyl sparteinium cations,
the stereochemistry of quaternary *N*-methyl sparteinium cations, their derivatives, stereoisomers and analogues. Part II. Molecular and crystal structure, and IR spectra of methiodide of 2-oxosparteine and methperchlorate of 2-oxosparteine 189

SPIRO
an answer to the SPIRO versus ANSA dilemma in cyclophosphazenes. Part IX. The first genuine ANSA derivatives from $N_3P_3Cl_6$ itself 365
4,4'-Sulfandiyl-bis-thiophenol
molecular structure of 4,4'-sulfandiyl-bis-thiophenol from electron diffraction 267

Tetrakis-trichlorophosphinenickel(0), $Ni(PCl_3)_4$
force constant calculations for tetrakis-trichlorophosphinenickel(0), $Ni(PCl_3)_4$ 135
Tetramethylammonium fluoride
hydrogen bonding. Part 23. Further studies on stoichiometry, stability, and structure of the lower hydrates of tetramethylammonium fluoride 57
Thionitrites
conformational analysis of some thionitrites 179
